

May 10, 2022 - Roz Kleffman

Roz Kleffman has been around the block a few hundred times. Many camera club folks will remember her from the old GWCCC days where she was active with the yearly seminar as the Competition VP. She was also the club rep for The All Maryland Council of Camera Clubs. Roz was President of Bowie-Crofton Camera Club for a total of 22 years and over the past 40 years has held every office in that club. Roz was awarded "APSA" for The Photographic Society of America in 2019 and frequently judges interclub competitions for PSA.

Not resting on any past laurels, Roz continues to wear multiple hats at The Bowie-Crofton Camera Club and The Maryland Photographic Alliance. She recently completed a two year term as VP of Competition at B-CCC; Sits on the Judge Certification Program for Maryland Photo Alliance as well as the MPA Competition Committee and is the club rep for MPA. She was in the first class of judge trainees at MPA and may have been the first to achieve "certification" status. Always promoting photography, Roz freely gives of her time and talents. You may be wondering what type of photos this judge prefers? Roz looks for something uniquely different, maybe something that stretches the imagination, perhaps a different perspective. Be creative!

Roz continues her nursing assignment as a care manager at a local internal medicine office, as a Parish Nurse for her church and volunteers at Anne Arundel Medical Center in radiation oncology. Roz currently works on set for television and movie productions as a nurse medic. She is an avid sewer, embroiderer and quilter too.
