

Capturing Motion program description and bio

"Capturing Motion" - Betsy Wilson will explore the world of motion photography through her unique perspective. A combination of traditional techniques of controlling shutter speed with some non-traditional concepts using camera motion and light-painting, Betsy's images will inform and inspire us to try new ideas. Using your camera to capture motion in ways beyond what we see with our eyes results in endless creative possibilities.

Betsy began learning photography after retiring from a career as a newspaper publisher. Her husband Jim gave her his hand-me-down camera and a lot of encouragement, and now says he created a monster. Her passion for photography includes a wide variety of types including macro, landscape and nature photography. In addition to being honored as Photographer of the Year Award at the Chester County Camera Club in Pennsylvania, she has received numerous recognitions for her artistic photography including a Silver Medal awarded at the Wilmington International Exhibition of Photography, and First Place Award in Photography at the Philadelphia Flower Show. Betsy is an active member of the Chester County Camera Club, and has given numerous presentations to camera clubs around the country.
